Hi Linda-the following case involves Chemist Annie Dookhan-is it possible to have the drugs retested?
I does have a trial date of 4/12-
Please advise
Thanks,
Marian Ryan

Hi, Mike. The BD on this is denied. D had a pending PWID case when he sold to officers here and he picked up another PWID case out of Lynn in December while this case was pending. I think the lab should retest the drugs in this case. Is that approved?

Ok, let's get the notice out to counsel asap and go from there.

Unclear at this point. I am having Chris put together a BD memo on it as it might be appropriate for a BD here. I will know better early next week.

I think we can do that collectively. The lab will do it if we want. Is it worth it in this case?

Who is making the call on whether we ask the lab to retest?

I think we are doing case by case.

Subject: RE: DPH Chemist Annie Dookhan a/k/a Kahn

Just so I am clear - Are we asking the lab to retest anything that she was involved in? I just want to make sure I am instructing people appropriately.

Chris, Thanks for flagging. Fawn and James did a notice on another case then can send to you for discovery purposes. And you may want to see if you can get a continuance and a new chemist assigned. Happy to discuss further. Mike

Hi Mike –

I have two cases where Annie Dookhan was the custodial/preliminary chemist. Defendant is [REDACTED] Docket # [REDACTED] both on for Jury Trial on 4/12/12. There have been other issues with discovery including a mixup involving drug certs when a sample of an undercover buy performed by a CRI was submitted instead of the buy done by the undercover officer.

Since this is coming up for trial shortly I wanted to flag it immediately.
